WE RECOMMEND THIS

$11,500.00

50 Acres Six room house, 2 large barns, well, windmill and tankhouse. Family orchard, 7 acres 1 year old Blenheim cots, 1 acre cherries, same age. Balance hay land. Very fine hay or orchard land. Last year raised 80 tons of hay. Is surrounded by thrifty and productive orchards. Will consider small acreage near Campbell in part payment. If in bearing orchard would be worth $20,000 or $25,000.

Hon. L. D. Bohnett Will Explain Amendments.

Orchard City Grange has arranged for an open meeting to be held Tuesday evening, September 26th, at 8 p. m., for the purpose of listening to an explanation and discussion of the Constitutional Amendments to be voted on October 10th. Assemblyman L. D. Bohnett will be the speaker of the evening and no doubt a large number of his many friends will be out to hear him. Everybody invited.

M. E. Church Conference

The 59th session of the annual conference of the Methodist Episcopal church in California is in session at Pacific Grove, Sept. 13 to 18, with Bishop Edwin H. Hughes presiding. The Rev. J. F. Wilson of the Campbell charge is in attendance, also Rev. H. C. Langley.

Rev. Wilson has finished a year of splendid work in Campbell and it is the unanimous wish of the membership that he be returned here for another year. Being in the midst of building activities he could not be spared from the work. The reports at the quarterly conference last week showed that the church had 140 members one year ago and now has 160, a net gain of 20. Mr. and Mrs. Wilson have not only won the hearts of the entire membership of the church, but have made themselves felt throughout the whole community. Mr. Wilson is not only a student and pastor but a man with splendid business abilities, and has the confidence of the business men of the town. Mrs. Wilson's sweet voice has been a great help to the choir of the church. Without a dissenting voice in the Congregation, all are looking forward to another year with Brother and Sister Wilson in charge of the work here.

Legal Holidays for Public Schools

Inquiry has been made in regard to holidays which are to be observed by the public schools of this State, and for the benefit of those seeking this information we quote the law on the subject;

"The public schools of this State shall close on Saturday, Sunday, the first day of January, the thirtieth of May, the fourth day of July, the twenty-fifth day of December, and every day appointed by the President of the United States or the Governor of this State for a public fast, thanksgiving, or holiday. Said public schools shall continue in session on all other holidays, and shall hold proper exercises commemorating the day. Boards of school trustees and city boards of education shall have power to declare a holiday in the public schools under their jurisdiction, when good reason exists therefor."—Pacific Grove Argus.

The Farmer's Creed

I believe in being a son of the soil, and in eating bread by the sweat of my brow, always performing uncomplainingly my share of this world's labor. I believe in living a true, spotless life as inspired by Mother Nature; in winning good neighbors by being one myself, and in being charitable toward the unfortunate with the same kindly spirit that the hand of Providence has dealt with me. I believe that honest, unselfish motives will win honest reward, and that the practice of the Golden Rule will give to us all a square deal and the comforts of life and peace.—Farm Journal.

Epworth League Social.

The Epworth League members were entertained at the home of Mr. and Mrs. Geo. Page last Friday evening. Business and pleasure were combined. The society will undertake to tint and finish the Sunday School room of the new church. A number of new members were received. Ice cream and cake were served.

The Question of Glasses

Are they needed or not?

The question is easily answered by those who can't see well without them, but for a great many who see well and still suffer from the effect of eye-strain it can only be decided after a careful examination. Such an examination I am prepared to give you, and an honest opinion as to what is needed. No operation. No drugs. No glasses unless necessary.

Sunday Concert

Special Engagement For the Congress Springs Concert.

Miss Rebecca Thayer Hillis, the talented young soprano coloratura, will contribute several solos to the program for the afternoon concert at Congress Springs next Sunday, Sept. 17th. Miss Hillis, who is now in San Francisco taking advanced vocal studies under Michelena, and who is as yet at the very entrance of her career, already possesses unusual excellence in technique in addition to a voice of remarkable range and power. There is no doubt that a very large audience will greet Miss Hillis. This is her native valley, and she has hosts of friends here; but besides that, there are very many who will be glad to avail themselves of the opportunity to verify the currant reports of her unusual talent and ability. The orchestral numbers will be furnished by the d'Ablaing Orchestra.

WANTED—Orders for engraved cards, wedding invitations, etc. The Press Office.

New Process Fancy Red Alaska Salmon

REASON WHY IT IS BETTER

San Francisco, Cal., Aug. 19, 1909.

We are the only canners using the so-called NEW PROCESS, although it is not new to us, for this is our tenth season and we like it better as time goes on, for we have less swells than our competitors and our customers like the EXTRA OIL in the tins.

After the first cooking by the old process, our competitors puncture each tin to exhaust the hot air which escapes with such force that it takes with it much of the best juice and oil of the salmon, many cans spouting the juice high in the air, while we exhaust the air without puncturing the tins and **do not lose any of the oil**, leaving in each tin everything that it put there.

Absolutely everything that is put in the cans is one pound of fish and a quarter of an ounce of salt, so that the juice which escapes when the tins are punctured cannot be anything but the juice or gravy of the salmon. To our minds, in a way, the old process is like putting a roast in the oven and later pouring off much of the best gravy or juice of the meat, then returning it to be finished.

The **extra oil** on our liquor is quite evident on opening several of our tins alongside of those packed by the old process.

We were also the first in the Bering Sea to use the celebrated **"Iron Chink,"** which cleans the salmon so quickly and thoroughly, thus doing away with handling by Chinese and Japanese, and the liquor on our salmon besides being more oily is thus also **cleaner.** We are most particular with the processing all through.

We use bright attractive lacquer on the tins and are very careful with the labeling, while the cases are strong and neatly branded.

Although we do not charge any more for it, consider our salmon worth fully 10c per dozen or 40c per case more than our competitors' fish, which is all put up by the old process.

It is absolutely impossible to pack successfully by our process any salmon not **Fresh.**

Our Brands are—**"Deep Sea," "Bering Sea," "Royal Club," "Leader," "Rising Light," "White Bear," "Radium" and "Mohawk."**

OUR ideas on the question of the residence of the grammar school teachers, as expressed in the editorial of last week, are not according to the judgment and experience of some of our people. There is much that can be said in favor of allowing the teachers to live elsewhere if they so desire. The principal work—or perhaps the whole duty—of the teachers is to look after the education of our children, and no influences outside of the school should be allowed to interfere with their giving the best possible service in the schoolroom. We are always glad to have anybody holding opposite views to come in and talk with us. Our ideas, like our type forms, are not stereotyped, and we are always willing to learn. We are especially anxious to learn the ideas and sentiments of the people of this community. It is possible that we will have more to say about the residence of the teachers in a later issue.

IT will cost $900,000 to raise the Maine when the job is completed. Maybe this will help us to remember.

THAT the governors of twenty-three states favor uniform divorce laws may result in putting divorce in a straight jacket.

SAUERKRAUT is to be higher this year because the cabbage crop is short. This is the most unkindest jump of all.

CHAMP CLARK is sure the democrats will come back in 1912. Still it might be a good plan for him to take out accident insurance on his sureness.

JULIUS CAESAR BURROWS a recently unhorsed standpatter is convinced that America is going to the dogs now that he is no longer swinging it by the tail.

THE people have to pay the cost of the primaries. If they are wise they will control them, nominate the candidates they want and get the worth of their money.

CONGRESS having adjourned, Champ Clark went back to Missouri to discover whether his presidential boom had pawed down the fence and broken over into any of the neighboring states.

PRESIDENT TAFT has been a judge and he doubtless knows what he is talking about when he says it will be impossible for judges to be independent, and yet afraid of the politicians at the same time.

AT last it has been settled. The amendment to the state constitution granting the franchise to women is to appear on the ballot as Number 4. However, it will be the eighth amendment to the constitution when it has passed the judgment of the voters on October 10th.

IF every business man in our town could do business on a strictly cash system it would be a blessing to us all. If we all had to pay cash we would learn to live within our means. It would save business men the expense of bookkeeping and the loss of bad debts, all of which some one has to pay for. If our town could gradually work into a strictly cash system it would be better for us all.

MARK KEPPEL, Superintendent of Schools of Los Angeles County, in an address at the headquarters of the California Political Equality League in Los Angeles last week, said:

"The moral judgment of women is better than that of men, and if that is so, the way to make things morally right is to put the women in. Humankind will never go wrong by putting more intelligence and character into its ruling class. Any one can accomplish more with a big stick than without it and the woman's big stick is the ballot."

It is a dangerous thing in Pacific Grove to have an opinion—extremely dangerous to print that opinion in a paper. But the Argus is going to hazard it even at the risk of losing a little city advertising.—Pacific Grove Argus.

Elgin Hurlbert, Jr., who has been suffering with trouble of the tonsils for some time past, had an operation performed on Thursday morning, by Drs. Graham and Yates. They removed the swollen gland from the left side of the throat. The little chap is feeling better now, and seems to be on the road to recovery.—Pacific Grove Argus.

Why is if that we so easily forget that the little things in life are what make it easy or hard? A few pleasant words, a warm hand clasp, a cordial letter, are simple things, but they are mighty in their influence on the lives of those about us, adding a ray of hope to many disconsolate hearts, giving a bit of courage to disappointed, weary ones and helping to make our own lives sweeter at the same time.

Both High school and Grammar school scholars are most cordially welcome at

A GOOD PLACE TO TRADE

What is needed is, that at home and at school, our girls are taught that to shine in social circles or to roll in wealth is not the highest aim of womanhood. But let them be taught to make a home joyful and happy, and yet be prepared, if necessary, for life's bitterest struggles. Let them understand thoroughly the details of everyday life, the value of all kinds of commodities used daily, how to make a check, draft, note and receipt. Let them be told the truth about themselves and about the world. They should know something about the snares and pitfalls that beset them.

The Cough of Consumption

Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about your taking Ayer's Cherry Pectoral. It controls the tickling, quiets the cough.

Ayer's — We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor

One of Ayer's Pills at bedtime will cause an increased flow of bile, and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime.

Made by the J. C. Ayer Co., Lowell, Mass.

Untimely Interruption.

Professor McGoozle was deeply absorbed in the effort to take the tangle out of a knotty point in metaphysics.

"Lysander," said his wife, looking up from the paper she had been reading, "what does it cost to have one's name changed?"

"It never cost you anything to have your's changed, Alvira," irritably answered the professor. "I paid all the expenses."

The worm turned at last.

"That was no more than you should have done," she snapped, "considering that I changed my name from Vanderpoole to McGoozle."—Chicago Tribune.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines." —Mrs. J. G. Johnson, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

CONSUMPTION OF LIQUOR INCREASES IN AMERICA.

Eight Million Gallons More Whisky Used in Past Year.

In the last 12 months the consumption of liquors broke all records, and the people of the United States consumed over eight million gallons more of whisky and over 113 million gallons more of beer in the fiscal year ending June 30, 1911, than they did in the fiscal year ending June 30, 1910, is the announcement of the National Model License League, which has just received the official figures from R. E. Cabell, U. S. commissioner of internal revenue.

The total consumption of distilled spirits for the year just closed was 134,600,193 gallons, as compared with a consumption of 126,384,726 gallons in the previous year.

The total consumption of beer for the fiscal year of 1911 was 63,216,851 barrels or 1,959,722,381 gallons as compared with 59,544,775 barrels or 1,845,888,025 gallons for 1910.

The combined increase is 121,049,823 gallons which represents an increase of 1.3 gallons per capita, using census figures. The total per capita consumption is now 22.29 gallons.

The highest previous consumption of distilled spirits was for the year 1907. The slump that followed that year continued until 1909 and then took an upward turn to the present apex.

An Anti-Loquacity Machine.

"I think I'll have to invent for my own benefit," said the talkative man, "some sort of an anti-loquacity machine. I talk, I am willing to admit, I talk too much; when I get going I don't seem to know when to stop; and this machine that I'm meditating will be something in a small portable form that I can carry handily in my vest pocket and that will wiggle or weave or pop up or do something to remind me when I have talked to a reasonable limit, and I shall make it non-adjustable so that it can't be set to run beyond a certain limit; if it was not made non-adjustable I might be tempted to set it to run too long before it gave the warning.

"My primary purpose was, as I said, to invent this machine for my own benefit only, but now when I come to think it over I may put it on the market; there might be a few, at least a few, other people who would like to buy one."

Soap for Upholstery.

Soap to clean fine upholstery, rugs, carpets: One bar of naphtha soap cut fine in one gallon of water; add four ounces pulverized sal soda, eight ounces borax; boil 15 minutes; four gallons of cold water and one-half pint of alcohol; stand over night. Apply a small amount on brush and on a small space at a time. Wipe off immediately with clear water and cloth, wringing cloth out, changing water often. Let dry. It will look bright as new. This will not harm any delicate articles, silks or wool.

INTEREST IN NEW METHODS GROWING

Remarkable Success Here Attracting Attention.

Prof. James Munyon, the health expert, had a strenuous time yesterday. People seemed to flock to him on account of his remarkable success, and it was a difficult matter to get within speaking distance of him. Several persons expressed themselves forcibly in explaining the reasons for their belief of the man. One young woman, who is very prominent in the city, said:

"I have been suffering for years with a combination of stomach troubles, catarrh and other troubles, with general debility. I could hardly do anything at times on account of the pain in my stomach, side and chest. I had a dull gnawing pain in the pit of my stomach, palpitation of the heart, and a feeling of weakness that I could not understand. Headaches most of the time, with extreme nervousness, made it so that I could not eat, and what little food that I did eat I did not seem to get any strength from. Very often I would have to get up at night for something to eat in order to stop the hungry feeling that would come over me.

"Munyon's treatments had been suggested to me, but I laughed at the idea that they could do me any good, as I had tried so many doctors and remedies without relief. I was tired, nervous and worn out all the time. Nothing I could do made me feel any better.

"I had little hopes that his new treatment could help me, but when I heard what wonderful work he was doing here I decided to consult him. Now I feel like a woman made over; am regaining my weight, feel well and cheerful all the time. I was surprised at the quick results, for my improvement was almost immediate; my soreness vanished and I could eat anything I wanted to. I look and feel 10 years younger, and it is all due to Prof. Munyon's new treatment."

"This statement is one of many," said the health expert today. "I have not had one single case of dissatisfaction or poor results from my treatment in this city since opening here.

"I believe that I can do as much for others as I have done for her. My methods are simple, founded on Nature, and I have made stomach trouble a deep study for years. That explains my universal success.

"I want every man or woman suffering from rheumatism, bladder-kidney troubles or indigestion to go to the nearest drug store and get my remedies. These little pellets remove the cause of your trouble once for all. If you are not sure just what your trouble is, write a personal letter to Prof. J. M. Munyon, 53d and Jefferson Sts., and he and his expert corps of physicians will give you medical advice absolutely free. They will send you an examination blank and ask questions and give you the most painstaking examination and there is not a penny to pay nor are you under any obligation to follow their advice.

OUR FEATHERED FRIENDS POLICE EARTH AND AIR

Without Their Help the Farmer Would Be Almost Helpless.

Birds work more in conjunction with man to help him than does any other form of outdoor life, according to a recent article in Success Magazine. They police the earth and air, and without their services the farmer would be helpless. Larks, wrens and thrushes search the ground for grubs and insects. The food of the meadow lark consists of 75 per cent of injurious insects and 12 per cent of weed seed, showing it to be a bird of great economic value. Sparrows, finches and quail eat a large amount of weed seed. Practically all of the food of the tree sparrow consists of seed. Examinations by Professor F. E. L. Beal of the Biological Survey of the Department of Agriculture, show that a single tree sparrow will eat a quarter of an ounce of weed seed daily. In a state the size of Iowa tree sparrows alone will consume more than 800 tons of weed seed anually. This, with the work of other seed-eating birds, saves the farmer an immense amount of work. Nuthatches and chickadees scan every part of the trunks and limbs of trees for insect eggs. In a day's time a chickadee has been known to eat hundreds of insect eggs and worms that are very harmful to our trees and vegetables. Warblers and vireos hunt the leaves and buds for moths and millers. Fly-catchers, swallows and night hawks are busy day and night catching flies that bother man and beast. Hawks and owls are working silently in daylight and darkness to catch moles, mice, gophers and squirrels.

Steamed Fruit Puddings.

Dissolve in one and one-half cups of milk, one even teaspoonful of soda, beat one egg light and add to the milk, put into it a pinch of salt and one heaping teaspoonful cream tartar sifted with enough flour to make a not too stiff batter; grease five cups, into which put a layer of apples, pears, peaches, strawberries, raspberries, cranberries (or any fruit in its season), cut fruit fine and fill cups two-thirds full; steam one hour and serve with the following sauce:

Place in saucepan a piece of butter size of an egg, let it melt, then add one tablespoonful sifted flour, pinch of salt, one and one-half cups boiling water; let this boil up once, then add one cup sugar and flavor with lemon or vanilla according to fruit used.

No Sharing Profits.

M. Paul was a grocer in a French town. Rats overran the place and a price of two sous a head was placed upon them by the town council. M. Paul's errand boy, working early and late, managed to slay 90 rats in the cellars and attics of the shop. The boy took them to the town hall, and, returning jubilant to the grocer's, showed M. Paul the nine francs he had gained. The grocer held out his palm. "Hand the money over," he said. "You knew very well those rats were mine, not yours!"

Didn't Know What to Do.

"I tell you, I'm down on these autermobiles," said the Kansas farmer.

"Bother you much?" asked the tourist.

"Well, I sh'd say so! When a feller sees a funnel-shaped cloud a-comin' a-whoopin' he don't know whether to run fer a gun or a cyclone cellar."—The Ram's Horn.

Kindness.

It is kindness that makes life's capabilities blossom and paints them with their cheering hues and endows them with their invigorating fragrance. Whether it waits on its superiors, or ministers to its inferiors, or disports itself with its equals, its work is marked with a prodigality which the strictest discretion cannot blame.

Cultivate Kind Voice.

A kind voice is a joy, like a lark's song, to a hearth at home. It is a light that sings as well as shines. Train it to sweet tones now and it will keep in tune through life.—Elihu Burritt.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies *are* needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

High Heels and Wit.

If anything could be higher than the Parisienne's hat it is her heels. The low English heel has once or twice enjoyed a brief season's favor in Paris, but at heart the Parisienne dearly loves to add a cubit or so to her stature and she achieves it of course with her beloved Louis XV. heel. Perched thus on stilts with the foot at an impossible angle, "le footing" becomes impossible and madame seats herself in a cab every time she starts out for a walk. That is why her boots and shoes are always new.

Some one has discovered that there is a close relation between the heels and the wit. The conversation of the walker in low heels is trite and flat—bromidic, so to speak—but she who trips in high ones will soar to unexpected altitudes of epigram and paradox. We know that great wit and insanity are near neighbors and the Germans putting the principle in practice are treating madness with a barefoot regime. The contact of the bare flat foot with Mother Earth is expected to bring back wandering minds to an every-day plane and the experiment is naturally interesting.

Natural History.

"I don't suppose," remarked Gregg Halloway, grinning ruefully, "that I'll ever have the nerve to call my son down again."

"What went wrong?" we asked him.

"It was this way. We were invited out and the kid exhibited his worst table manners. I leaned over to him and whispered—in a stage whisper—'You're a little pig!'

"The kid just grinned.

"'Do you hear?' I asked. 'You are a little pig! Do you have sense enough to know what a little pig is?'

"'Yes, papa,' answered the child, trying to look innocent.

"'Well, then, what is it?'

"'A pig is a hog's little boy!'"—Cleveland Plain Dealer.

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Pellets. Tiny sugar-coated granules.

Doing His Share.

"I suppose," said the heiress' father, "you have assured my daughter that you will grant her every wish." "No," replied Baron Fucash, "I will not misrepresent my financial resources. But I will do my best to be of service." "In what way?" "I will help her to wish."

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

Good Reason.

"Have you an appretite?" asked the physician.

"No," replied the patient.

"Hum! Very bad symptom."

"Maybe not. You see, I've just had my dinner."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Robbers Had Ingenuity.

An unusual scheme for robbing a gold dump was discovered at Nome, Alaska, a few days ago, when inspection was made of a dump that was thrown up three years ago. It was found that robbers had sunk a hole through the top of the dump and sluiced out all the inside, leaving a hollow shell standing. It is estimated that in this manner the thieves had obtained $5,000.

Stung.

"How in the world did you ever come to marry that horrid man in the first place?"

"It was all my chum's fault."

"Did she tell you that he was rich?"

"No, she pretended that she wanted him herself."—Houston Post.

When Conceit Is Strong.

Occasionally a man's conceit attains that superlative degree where he talks glibly in his own interest and calls it working for the general good.—Atchison Globe.

Reassuring.

Cauliflower Cooked Spanish.

Take one large cauliflower, boil until tender. Then set aside on a platter. Make a batter of six to eight eggs beaten well and add one tablespoonful of flour to thicken. Cut cauliflower the size of an onion, dip into batter, fry in buttered pan until brown.

Sauce—Take a large onion, also garlic, and three small chill peppers, chopped fine, and one large piece of butter; brown together in frying pan; add a tablespoonful of flour, half can tomatoes, salt and pepper to taste, cook ten minutes, pour over cauliflower and serve.

Curious.

Mayme—Sure, I used to go with him. Did you tell him I was going to be married?

Grayce—I sure did.

Mayme—Did he ask "how soon?"

Grayce—No. He asked, "how long?"—Toledo Blade.
